1. At this stage any precipitate move on the part of [] might prove fatal to himself and his associates and conceivably hamper the progress of PBSUCCESS. Could you possibly convey to [] in a manner sufficiently authentic to carry conviction, that he refrain from any moves likely to arouse the vigilance of the Guatemalan security services prematurely? Could he also be told that he will be contacted prior to May 1st by a person equipped to discuss all problems relating to the problem of Communism in Guatemala and that, pending this contact, he should cease and desist.
2. ESQUIRE would appear a logical choice to convey the message, provided our control over him is sufficiently strong to assure that he won't stray outside the pale of your instructions. Only if you are reasonably certain that [] can be contacted in a secure manner, would we want you to proceed as indicated.
3. Please keep us advised by cable regarding further developments.
